

DHL Web Shipping.

Makes shipping online easier than ever before – helping you to prepare documents, book pick-ups, store contact details and track your deliveries with a few simple keystrokes.

Shipping at your fingertips.

You don't have to be a shipping expert to provide an expert service. DHL *WEB SHIPPING* enables you to respond to any shipping request within minutes.

It's the ideal way for busy office managers, business travellers or receptionists to handle shipping - without getting bogged down in paperwork. And when you need to know the location or delivery status of your shipments, the facts are at your fingertips.

DHL *WEB SHIPPING* helps you to manage shipping smoothly and efficiently –so that it doesn't disrupt your day. And you can offer a level of service that will impress customers and colleagues alike.

The quick and easy way to handle shipping.

The easy way to prepare and book your shipments.

DHL *WEB SHIPPING* is the easy way to get shipments off your desk and off your mind.

All you need to do is log on to www.dhl.com & select DHL *WEB SHIPPING* – the new, simplified navigation guides you, quickly and easily, through the entire process.

With a click of a mouse you can:

- Select the right shipping and value-added services for each of your shipments
- Quickly prepare air waybills and customs documentation online, reducing paperwork and the risk of errors
- Get the latest service bulletins and customs information
- Book collections and track shipments online
- Save up to 300 customer addresses
- Access shipment records for 99 days
- Alert recipients and other interested parties by email, so they can pick up the shipment the moment it arrives.

DHL *WEB SHIPPING* is also perfect for telecommuters. You can order a pick-up, check service availability or track your shipments from any location, in real time, straight from your wireless laptop.
